

# TRANSIT CONNECT FAMILY ONE CONCEPT VEHICLE

## INNOVATIVE CONNECTIVITY

The Family One concept is designed to integrate technology into a family's lifestyle. With a radio frequency identification program in place, families can track all the items the active family needs to stay organized.

The in-dash computer will provide notification, based on predictive algorithms that "learn" based on past usage, if items like homework or musical instruments are missing.

The system also works with sensors to notify the driver if a child's safety seat is improperly attached or tensioned.

## HIGHLIGHTS

- Transit Connect Family One is a forward-looking concept vehicle that combines high-tech and high-touch amenities to keep a youthful family connected, engaged and entertained.
- Transit Connect Family One could help young families to drive green, is built on a spacious yet compact global platform, and has the potential to host a wide array of fuel-efficient engines.
- The Family One concept is based on the Transit Connect, a global Ford platform adaptable to a wide variety of applications both personal and professional.

## FAMILY-FRIENDLY FEATURES

Clever features keep the needs of families in mind. They include built-in hand sanitizer and sunscreen dispensers, family walkie-talkie radios that charge when docked, an integrated first-aid kit and cargo door-mounted folding twin scooters.

The storage area beneath the rear floor holds a folding stroller, and an integrated awning extends from the open rear cargo doors. Seat covers are removable and washable.

The second-row seats in the concept provide young passengers with ample room to relax, enjoy the projected digital media entertainment on the sunshade screens or look through the expansive windows. Side rear inner door panels are water-pen friendly and easily wipe clean after drawing time is done.

## FUN AND EFFICIENT

The Family One offers 135 cubic feet of space on a compact platform, with a vibrant color scheme and expansive greenhouse area that combine to offer friendly visual character and an airy interior space.

It is powered by a 2.0 liter I-4 engine delivering 22 city and 25 highway miles per gallon, and features SmartGauge™ to help parents drive more efficiently.
