

LINCOLN

# 2011 LINCOLN MKZ HYBRID

## MORE STANDARD LUXURY FEATURES

### PRODUCT HIGHLIGHTS

- The 2011 Lincoln MKZ Hybrid offers modern luxury car buyers all the indulgences of a premium midsize sedan *and* all the environmental benefits of a world-class hybrid vehicle.
- The Lincoln MKZ Hybrid is equipped with an impressive array of standard luxury appointments, exceptional interior craftsmanship and leading-edge safe and smart technologies.
- Building on Ford's reputation as a world leader in electrified technology, the Lincoln MKZ Hybrid uses the company's second-generation hybrid technology – the 2.5-liter Atkinson-cycle I-4 hybrid engine.
- The Lincoln MKZ Hybrid is the most fuel-efficient luxury sedan in America; it delivers 41 mpg in city driving and 36 mpg on the highway.

### 2011 LINCOLN MKZ HYBRID VS. 2010 LEXUS HS 250H

- More standard luxury features
- More spacious
- Quieter

- Lincoln SmartGauge with EcoGuide takes SmartGauge technology to the next level of engagement with an enhanced emotive display featuring flowers complementing the leaves, which coaches drivers to maintain long-term fuel-efficient driving habits
- Lincoln SYNC® (voice-activated, in-vehicle communications and entertainment system)
- Remote Keyless Entry System
- Easy Fuel® (capless fuel filler)
- Reverse Sensing System
- Heated and cooled front seats
- Memory driver's seat
- 10-way power passenger seat
- Bridge of Weir™ leather-trimmed seats
- Acoustic laminated windshield
- Integrated blind spot mirrors
- MyKey® programmable vehicle key
- Personal Safety System™
- Genuine wood trim

### AWARD-WINNING HYBRID POWERTRAIN

- Ford's world-class second-generation hybrid technology, the 2.5-liter Atkinson-cycle I-4 hybrid engine was named one of Ward's 2010 "10 Best Engines."
- Combines the best attributes of the gasoline engine and electric battery-driven motors to deliver optimal performance and fuel economy.
- Fuel economy comes without sacrificing power, as the combined gasoline engine and electric motor provide a robust 191 net horsepower.
- Can operate in electric vehicle mode at speeds up to 47 mph.
- Integrated gas-electric power system provides a smooth, quiet transition from electric to gas mode.

## REFINED DRIVING EXPERIENCE

- Elegant exterior design
- Luxurious interior
- Exceptional performance
- Ultra-smooth, quiet ride
- World-class hybrid powertrain

## VITAL STATS

**Powertrain:** Gasoline engine: 2.5-liter DOHC 16-valve Atkinson-cycle, 156 hp @ 6,000 rpm, 135 lb.-ft. torque @ 2,250 rpm; electric motor: permanent magnet AC synchronous motor, 106 hp @ 6,500 rpm, 275 volts; electronically controlled continuously variable transmission; 191 net hp

**Fuel economy:** 41 mpg city/36 mpg highway

**Production location:** Hermosillo Stamping and Assembly Plant, Hermosillo, Mexico

**MSRP:** Starting at \$35,180
