- SOS Post-Crash Alert System™
- Tire Pressure Monitoring System
- Illuminated entry

The 2011 Lincoln MKX midsize luxury crossover offers industry-exclusive technologies and an engaging design that features world-class craftsmanship and materials.

The vehicle's new exterior design embraces Lincoln signature DNA with a split-wing grille, body-side brightwork and new treatments for taillamps and exhaust tips. The all-new interior showcases the use of more luxurious materials and a meticulous attention to detail. And enhancements to the powertrain include a new 3.7-liter V6 engine, which delivers best-in-class 305 horsepower and 280 lb.-ft. of torque versus all V6 competitors, plus best-in-class fuel economy.

## MYLINCOLN TOUCH

The industry-first MyLincoln Touch™ experience, powered by Lincoln SYNC, creates a whole new way for customers to interact with digital and vehicle technology.

It replaces traditional vehicle buttons, knobs and gauges with clear, crisp LCD screens and five-way buttons like those found on cell phones and MP3 players. The screens can be personalized to display information relevant to each individual driver using a simple button click, voice command or touch screen tap.

## TAG THE SONGS YOU LIKE

New on the 2011 Lincoln MKX is the world's first implementation of iTunes® Tagging, available with a factory-installed HD Radio™ receiver. With a simple push of the "TAG" button on the radio display, the song information will be stored in the radio's memory.

Once a song is tagged, customers will dock their iPod® to the SYNC® system and the tagged song information will transfer to that iPod. Up to 100 tags on SYNC can be stored until the iPod is connected. When the iPod is then synced to iTunes, a playlist of tagged songs will appear. Customers then can preview, purchase and download tagged songs from the iTunes Store.

## VITAL STATS

**Powertrain:** 3.7-liter Ti-VCT V6, 305 hp @ 6,500 rpm, 280 lb.-ft. torque @ 4,000 rpm; six-speed SelectShift Automatic transmission
