

Sleek Escape

Drive quality.

Like an athlete poised in starting blocks, Ford's all-new Escape is set to spring beyond previous ideas of what an SUV looks like to create a sleek utility vehicle, visually communicating improved efficiency in fuel consumption and cargo stowage.

Wide and strong

The slim upper grille opening emphasizes Escape width. Three-dimensional hood focuses on and highlights the Ford oval.

Efficient profile

The fast windshield angle and dynamic roofline define the new innovative, efficient silhouette.

Sleek and lean

Design lines emphasize sleek, lean and athletic feel.

Muscular proportions

Strong shoulder forms, pronounced wheel arches and a rising beltline combine to define Escape muscularity.

Bold graphics

Characteristic trapezoidal grille divided into three sections, creating a bold new face of Ford.

Sophisticated Escape

Drive quality.

The muscular, athletic exterior of the all-new Ford Escape is complemented by a strikingly expressive instrument panel inside, creating a cockpit feel. The interior is well-appointed in terms of quality materials, craftsmanship and technology, led by the latest version of MyFord Touch®.

Softer feel

All main surfaces are soft to the touch.

Attention to detail

Exquisitely detailed switches, instruments and control surfaces enhanced by electroplated metal finishes.

Quality craftsmanship

Soft-touch instrument panel together with improved fit and finish emphasize quality craftsmanship.

New, more inviting seats

Strongly contoured sport seats with contrast stitching, also available in leather, complete the cabin.

More padding

Added padding on center console, and door armrests.
