

# The Super Tech of the all-new 2023 Super Duty

The all-new F-Series Super Duty is packed with ingenious standard and available technology\* to make towing and hauling the heaviest payloads and biggest trailers a best all-around experience. Super Duty makes getting big things done easy.

- 5G Wi-Fi\*\*\* enables Ford Power Ups and access to a powerful ecosystem of Ford Pro Intelligence software and services, allowing Super Duty to seamlessly shift from workhorse to office of the future†
- Available Intelligent Adaptive Cruise Control with Stop-and-Go and Lane Centering†† eases stress on long hauls
- Available Ford Pro Upfit Integration System\*\* enables easy access to vehicle signals so upfitters can seamlessly integrate their hardware and create digital buttons on the center display
- Available 360-Degree Trailer Camera Kit\*\* creates a bird's-eye view of the truck and trailer when four available wired cameras are attached to the trailer†††
- Available Trailer Navigation\*\* plots routes that can be confidently navigated with given trailer dimensions and weight
- Available Blind Spot Information System\*\* for 5TH Wheel and Gooseneck that can be attached to a trailer to help identify when vehicles are next to a trailer and indicate this in the side view mirrors††
- Available Pro Trailer Hitch Assist\*\* automatically backs the truck up and aligns the conventional hitch ball to the trailer receiver
- Available Front\*\* and Rear Brake Assist help can help prevent low-speed collisions to help automatically protect against hitting objects that may otherwise be hard to see††

• The 2023 Super Duty pickup has a class-exclusive available Interior Work Surface##

• Head-up display## to help maintain focus on the road while towing throttle and brake inputs to align the conventional hitchball to the trailer tongue

• Available Onboard Scales\*\* measure and display the approximate weight of payload in the truck. Load information is displayed in the center touch screen with a graphic representation of the truck, on a mobile phone through the FordPass™ app or with the truck's Smart Taillamps

• Available Power Tailgate\*\* with up and down functionality to make hitching easier

• Available 2.0 kW Pro Power OnBoard for pickup or chassis cab‡

• Industry-first available Tailgate Down Camera and Rear Park Aid Sensors\*\* includes a new camera and backup sensors in the top of the tailgate that provide visual and audible alerts when the tailgate is down to make backing up to a dock or hitching a gooseneck or fifth-wheel trailer easier than ever before††

\* Some feature availability may be impacted by the global chip shortage, subject to availability.  
 \*\* Available spring 2023.  
 \*\*\* Equipped with 5G embedded modem. Available Wi-Fi hotspot requires separate AT&T subscription.  
 † Connected service and features depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Connected service excludes Wi-Fi hotspot.  
 †† Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.  
 ††† Requires 360-degree Camera Package.  
 ‡ See owners manual for important operating instructions.  
 ## Don't drive while distracted. See owners manual for details and system limitations.  
 ### Class is Full-Size Pickups over 8,500 lbs. GVWR. Not to be used while driving.
