For more information on any of these vehicles please contact: William Mattiace, wmattiac@ford.com

#FordSEMA

Mustang

by Nitto Tire

The Mustang GT by Nitto Tire features a more aggressive look, raw power and track appeal. It's been bathed in a brilliant red from BASF and given extra horsepower via a Ford Racing Cobra Jet intake manifold breathing through a twin-bore 65-millimeter throttle body.

Mustang

by Hollywood Hot Rods

This Mustang by the team at Hollywood Hot Rods is an extreme custom and performance-minded modification. The handmade hardtop, redesigned tail section and one-off aluminum body accessories – such as the front grilles and air splitters – enhance its supercar styling.

Mustang

by Vortech Superchargers

The Yellow Jacket Ford Mustang created by Vortech Superchargers packs some serious sting. It includes 3dCarbon's Boy Racer kit, along with a carbon-fiber cowl induction hood and other carbon accents from TruFiber – all finished in a custom paint supplied by DuPont.

Fiesta ST

by COBB/Foust

COBB Tuning and Tanner Foust Racing transformed this Ford Fiesta ST into a tribute to the U.S. armed forces using urban military camouflage with orange trim. COBB Tuning designed and manufactured the powertrain upgrades for better performance, as well as smoother shifting and takeoff.

Fiesta ST

by Bojix Design

This Ford Fiesta ST by Bojix Design has slot car handling, with custom suspension, body and powertrain. A three-inch cat-back exhaust is matched with a Banks Power methanol-injection system for increased power. Custom paint adds style to a vehicle that has performance upgrades for added drivability and handling.

Fiesta ST

by MRT

The Ford Fiesta ST by MRT is a stylish street performer with aftermarket parts that enhance its sporty reputation. The car's EcoBoost engine and six-speed transmission are matched with a high-performance exhaust system. Eighteen-inch wheels from Rotiform and custom paint combine for a sharp, crisp look.

Fiesta ST

by Ice Nine Group

Ice Nine Group has created a Fiesta ST that could be the ultimate weapon for any roadway. Working with rally racing driver Tim O'Neil, the team created several custom carbon fiber products for the body, resulting in a vehicle suited for paved or gravel roads.

Fiesta

by 3dCarbon

This 3dCarbon Ford Fiesta makes a bold statement with road-hugging curves and race-inspired styling. The front air dam with splitter, side skirts and lower diffuser with accent trim lend an aggressive look. The 19-inch wheels and Pirelli tires compliment this mix of road car touring and muscle car performance.

Focus ST

by UTI

The past and the present collide with the Gulf Racing edition Ford Focus ST created by Universal Technical Institute. The classic Gulf Racing livery is matched with 19-inch deep concave wheels and aggressive custom wide flares. The interior continues the color scheme, which also has a Scosche Industries audio system.

Focus ST

by DRAGG

The 2014 Ford Focus ST created by Drag Racing Against Gangs & Graffiti (DRAGG) combines law enforcement with motorsports, for a fun and functional vehicle. The rally-themed paint scheme is matched with emergency lights, push bar, and an interior rifle rack.

Focus ST

by Green Filter

Green Filter USA combined the classic 1960s Lotus-Ford livery with the modern Focus ST for a throwback that is anything but dull. High-performance aftermarket parts give extra torque, horsepower and fuel economy. Falken tires provide constant grip with a turbo-powered engine to improve performance and reliability.

Focus ST

by PM Lifestyle

The 2014 Focus ST is ready for the Southern California sun after being given a makeover by PM Lifestyle. The Focus ST has been given a custom harness bar, carbon fiber exterior pieces and a custom paint job. Under the hood, a number of modifications give the Focus ST a performance feel to match its new look.

Fusion

by DSO Eyewear

DSO Eyewear has brought a performance edge to the top-of-the-line midsize sedan Fusion Titanium. The outside has been bathed in a tuxedo black with gold trim. The performance grilles and 21-inch Niche Road Wheels are more aggressive and lend street credibility.

Fusion

by Full-Race Motorsports

The object in the mirror that just passed you could very well be the Ford Fusion by the Full-Race Motorsports team. The 2.0-liter EcoBoost engine has been given a BorgWarner turbocharger to boost horsepower, fuel efficiency and performance while reducing emissions.

Transit Connect

by Pentech

The 2014 Ford Transit Connect Wagon is now the perfect place for gamers to take on the road after being modified by Pentech Automotive. The aim was to connect youth with the automotive design industry, with two driving simulators in the back of the Transit Connect.

Transit Connect

by LGE*CTS Motorsports

The 2014 Transit Connect Wagon Titanium is ready for a cruise through European countryside in an inspired look from LGE*CTS Motorsports. The team set out to take the practicality of the Transit Connect Wagon as a family or business vehicle, giving it European flair with upgraded performance and technology.

Transit Connect

by CGS Motorsports

The 2014 Transit Connect XLT by the team from CGS Motorsports is a must for any night spent at the drag strip. The interior has been outfitted with Lincoln Electric welding tools, a VIAIR air compressor and steel cabinets for tools.

Transit Connect

by eJudged.com

The Transit Connect Wagon Titanium edition is now a rolling hotspot, busting with tech upgrades by the team at eJudged. The Transit Connect was built to be a mobile command station for the company's event judging mobile app, making it the optimal place to perform car show judging.

Transit Connect

by Blood & Grease

The 2014 Transit Connect XLT is ready for the streets or the catwalk as a mobile high-end fashion shop for the automotive-inspired line of clothing from Blood & Grease, a subsidiary of The Aaron Vaccar Company that produces upscale, retro T-shirts with an automotive theme.

Transit Connect

by K-Daddyz Kustomz

The Transit Connect is now a mobile graphic shop after the team at K-Daddyz Kustomz got their hands on it. The vehicle now serves as a tool that can be taken to different locations with everything needed to mix paint and create custom graphics outside of the shop.

Transit Connect

by Mobsteel

The Transit Connect is ready to hit the street as a hot rod delivery vehicle, with a smooth scallop style and distinctive logos for the builder, Mobsteel. The interior will feature a wood-grain floor that jettisons out the back and custom wheels from Detroit Steel Wheel.

Transit Connect

by Impulse Marketing

The Transit Connect by Impulse Marketing & Media will take you back to a much simpler time with its ice cream delivery truck style. The Project SunnySide Transit Connect takes the ice cream truck of the past into today as a modern baked goods delivery truck.

F-150

by Fatal Clothing

The F-150 has been modified into a stylish street vehicle with a southern California influence by Fatal Clothing. It features an enhanced chassis with an air suspension system, supercharged V8 engine and 24-inch custom wheels.

F-150

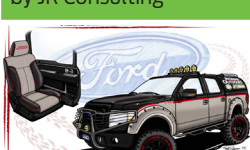

by Skyjacker Suspensions

The F-150 from Skyjacker Suspensions is now a sportsman's dream, ready for the hunting or fishing adventure. The truck has been put on a 6-inch lift with BF Goodrich Tires. It also has a locked storage area and other accessories for the avid outdoorsman.

F-150

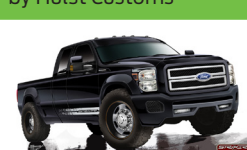

by JR Consulting

The Ford F-150 has become the ultimate vehicle for getting out on the weekends for adventure and fitness. The F-150 by J Robert Marketing and Public Relations has custom exterior, as well as a 11,000-pound winch, rear cargo area equipped for outdoor adventure and light bracket.

Super Duty

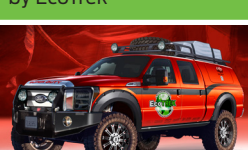

by Hulst Customs

The Ford F-Series Super Duty is ready for the workweek as well as the weekend as the "Striker" by Hulst Customs. The Striker engine has been matched with high-performance powertrain upgrades as well as custom 22-inch wheels wrapped in tires from Falken Tire.

Super Duty

by EcoTrek

The Ford F-350 is now the perfect machine for an eco-friendly adventure thanks to the team at EcoTrek. The 6.7-liter V8 engine can be operated on biodiesel or algae-based biodiesel. It is also equipped with a rooftop shelter with storage for food and water.

Super Duty

by Cars by Kris

The Ford F-350 from Cars by Kris has been dubbed as a real high roller with custom paint work that is matched up with 22-inch American Force wheels wrapped in tires from Toyo Tire. The diesel engine has also been given modifications from Banks Power and a custom side exit exhaust by MagnaFlow.
