

SYNC AppLink:

The free software program from Ford that gives SYNC users voice control of smartphone apps

SYNC® AppLink™ is available on Ford Fiesta, Mustang, Expedition, Fusion, F-150, Super Duty, Focus, E-Series and C-MAX, with more than 1 million vehicles on the road already.

- AppLink is a standard no-charge feature of SYNC that allows drivers to control smartphone apps via voice control
- AppLink can access mobile apps on Android and BlackBerry smartphones using Bluetooth® streaming and via a USB connection with Apple iPhone
- Ford has more apps available for voice control with SYNC AppLink than any other car company

App availability

SYNC-enabled apps include:

Pandora	Scout by Telenav
Stitcher	Rhapsody
OpenBeak	Aha
iHeartRadio	MLB.com At Bat
NPR News	USA Today
TuneIn Radio	SYNC Destinations
Slacker Radio	

Compatible versions vary by app and platform; see iTunes App Store, Android Market or BlackBerry App World for more details.

Just press the SYNC button on the steering wheel and say “Mobile apps” then respond to the SYNC prompt with the name of the app you’d like to run including:

*“Bookmark song”
“List stations”*

*“Play station news”
“Add to favorites”*

*“Recommend Stations”
“My stations”*

*“Programs”
“Topics”*
