

2016 FORD F-150

The 2016 F-150 shows that Ford is again teaching the world how to build the future of tough. It is the toughest, smartest and most capable F-150 ever, and is now the only full-size, light-duty truck to earn NHTSA's highest five-star crash test rating* for all crash test modes and cab configurations – SuperCrew, SuperCab and Regular Cab. The F-150 Limited returns to the lineup as the most advanced and luxurious F-150 ever.

*Government five-star safety ratings are part of the National Highway Traffic Safety Administration's New Car Assessment Program (www.safercar.gov). Tests include driver and passenger front, side and side barrier and pole tests.

PRODUCT HIGHLIGHTS

- High-strength, military-grade, aluminum-alloy body construction
- Available 2.7-liter EcoBoost® V6 engine
- Available Pro Trailer Backup Assist
- CNG/propane gaseous engine prep package on V8 (available late 2015)

STANDARD/SAFETY

- AdvanceTrac® electronic stability control
- Energy management system pretensioning for height-adjustable front-row safety belts
- Safety-cage body construction
- Earned five-star safety rating for all cab configurations

FIVE-STAR SAFETY RATING

The 2016 Ford F-150 received a five-star overall vehicle score* for safety from the National Highway Traffic Safety Administration. This is the highest possible overall score.

Safe

SMART TOWING

Available Pro Trailer Backup Assist is another F-150 innovation and makes backing up a trailer as easy as turning a knob.

Smart

Did you know? The 2016 Ford F-150 can do more work with smaller engines because the truck weighs less, allowing the engine to pull more weight.
