New, with a darker design, more advanced technology and improved performance, the 2018 Ford Mustang features changes to body and grille, and new hood vents that give it a more athletic look. For the first time, the entire lineup features all-LCD front lights, plus they are revised LED tail lights. The car also features an available performance package. Dual-tip exhaust is standard for Mustang EcoBoost®. V8 powered Mustang GT gets a standard quiet-exit tip exhaust. A heated steering wheel is optional, while the standard three-zone climate control system. Available 12-inch, all-digital LCD instrument cluster offers unique displays for normal, sport and track modes. All-Milestone customers save three settings when ordered with the 12-inch cluster. The car’s engine note can be personalized with all new active valve performance exhaust, available on Mustang GT.

Pre-Collision Assist with Pedestrian Detection, distant alert, lane-departure warning, lane keeping assist and Blind Spot Alert System are available driver-assist systems. SYNC® Connect with FordPass™ is available for the first time. New shock absorbers, cross-axle joint on rear suspension and innovative shock absorber offer improved ride on all Series. MagneRide™ damping system is an available driver-selectable system that uses a sensor to measure road conditions to determine the optimum damping rate for individual tires. MagneRide™ delivers increased control, while thoroughly reworked 5.0-liter V8 brings improved horsepower, quicker shift times, better low-speed tip-in response and significantly reduced friction losses.
