

2016 FORD FLEX

Ford Flex is a seven-passenger utility that offers power, efficiency, technology and driver-assist features in a one-of-a-kind vehicle. For 2016, Ford Flex offers available SEL Appearance and Limited Appearance packages with painted Shadow Black exterior mirror caps, grille center bar, liftgate appliqué and new 20-inch painted high-gloss black with machined aluminum-face wheels to provide a signature look to this three-row people and cargo hauler.

PRODUCT HIGHLIGHTS

- New colors: Shadow Black, Too Good to Be Blue, Kona Blue
- Rearview camera standard on all trim levels
- Adaptive cruise control and collision warning with brake support, and Blind Spot Information System (BLIS®) with cross-traffic alert are available to help drivers avoid potential accidents. The technologies use radar to detect the relative position of other vehicles, then warn the driver with a combination of visual and audio alerts*
- Intelligent all-wheel drive continuously monitors vehicle and driver input, predicts traction, and automatically delivers the precise amount of engine torque needed to all four wheels – even before slippage occurs. All-wheel drive is available with the 3.5-liter Ti-VCT V6 engine and is standard on the optional 3.5-liter EcoBoost®
- Available active park assist uses ultrasonic sensors to locate a parallel parking space. Once a spot is identified, the system steers Flex into place with the driver controlling the gearshift, gas and brake pedals*

*Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.

Engines: 3.5-liter Ti-VCT V6, 287 horsepower, 254 lb.-ft. torque; 3.5-liter twin-turbocharged EcoBoost V6, 365 horsepower,** 350 lb.-ft. torque**

**Tested with 93-octane fuel.

Transmission: Six-speed SelectShift® Automatic

Series: SE, SEL, Limited

Production location: Oakville Assembly, Oakville, Ontario

STANDARD/SAFETY

- AdvanceTrac® with Roll Stability Control™
- Four-wheel antilock braking system
- LATCH (Lower Anchors and Tether Anchors for Children)
- Dual-stage front- and side-impact airbags, Safety Canopy® with side-curtain airbags and rollover sensor†

†Always wear your safety belt and secure children in the rear seat.

SYNC 3

Standard on Flex SEL and Limited editions, SYNC® 3 – Ford's new communications and entertainment system – features an easy-to-use design and new interface. SYNC 3 is not only new, it's responsive and innovative.‡

‡Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply.

INFLATABLE REAR SAFETY BELTS

Inflatable rear safety belts are available to help provide protection for passengers. The inflatable belts help distribute crash force energy across more of the occupant's torso than a traditional safety belt.

Did you know? An available second-row refrigerated console can chill up to seven 12-ounce cans, four half-liter bottles or two 20-ounce bottles to 41 degrees Fahrenheit; the freeze mode drops to 23 degrees Fahrenheit.
