The 2016 Ford Edge offers features that help make it one of the world's favorite mid-size sport utility vehicles. For 2016, the dynamically designed Edge offers available features like SYNC® 3 driver-connectivity system, Adaptive Steering, and driver-assist technologies such as enhanced active park assist with perpendicular park, adaptive cruise control with collision warning and brake support, and a front 180-degree camera with washer.

NEW & NOTABLE

- Available Adaptive Steering is our next-generation of power steering, putting more control in the driver’s hands; available on Titanium models and standard on Sport
- Available SYNC 3 gives Edge owners our latest driver-connectivity system, which operates with voice commands, steering wheel buttons, and a capacitive touchscreen
- An available Cold Weather Package includes a heated steering wheel and all-weather floor mats

VITAL INFO

**Engines:** Edge comes standard with a twin-scroll turbocharged, direct-injected 2.0-liter four-cylinder EcoBoost® engine. A 3.5-liter Ti-VCT V6 is available on SEL and Titanium models, and a twin-turbo 2.7-liter EcoBoost V6 – the most advanced EcoBoost ever – is standard on Sport models.

**Transmission:** Six-speed SelectShift® automatic with paddle shifters
**Series:** SE, SEL, Titanium, Sport
**Production location:** Oakville Assembly Complex, Oakville, Ontario
**MSRP:** Starting at $28,700, plus $895 destination and delivery charges

ADAPTIVE STEERING

The new Ford steering system adapts to driving conditions to make steering easier at low speeds and more robust at high speeds. In low-speed circumstances such as in parking lots, Adaptive Steering lets drivers turn the front wheels with less steering wheel input. At highway speeds, the system provides a confident driving experience. Adaptive Steering comes standard on Sport models and is available on Titanium models.

SAFETY

- Glove-box-door-integrated knee airbag
- AdvanceTrac® with Roll Stability Control™
- Available inflatable rear outboard safety belts
- Curve Control
- Dual-stage front airbags
- Safety Canopy® System

A QUIET RIDE

Acoustic-laminate windshield glass is standard for every model. Edge Sport is equipped with active noise control technology to refine the sound of the 2.7-liter EcoBoost. Sport and Titanium models incorporate acoustic glass on driver and passenger doors.

Did you know? Auto Start-Stop Technology is available on Edge. The technology turns the engine off to save fuel when the vehicle is stopped, and seamlessly restarts it when the driver releases the brake pedal.
