# Innovate Mobility Challenge: Accessory Challenge, Australia

## Fact Sheet: Accessory Challenge

Ford Motor Company is defining a challenge in Australia, the country with the third-lowest population density in the world.

Drivers traveling in remote areas over rugged terrain must be prepared for emergency situations and conditions. Having limited access to help and resources is one of the challenges they face during their journey. A long drive in a desolate location may also lead to driver distraction and inattention.

Ford is asking innovators to invent a novel accessory or app that increases driver awareness in remote regions or over rugged terrain. The main goal is to enhance driver self-sufficiency in difficult situations, like electrical failure, hazardous weather and dangerous road conditions.

A grand prize winner has yet to be named.

### About Ford Motor Company

Ford Motor Company is a global automotive and mobility company based in Dearborn, Michigan. With about 202,000 employees and 62 plants worldwide, the company's core business includes designing, manufacturing, marketing and servicing a full line of Ford cars, trucks and SUVs, as well as Lincoln luxury vehicles. To expand its business model, Ford is aggressively pursuing emerging opportunities with investments in electrification, autonomy and mobility. Ford provides financial services through Ford Motor Credit Company.
