## Ford Motor Company Issues Safety Recall for Certain 2016 E-Series Cutaway and Chassis Cab Vehicles in North America

**DEARBORN, Mich., Jan. 27, 2016** – Ford Motor Company is issuing a safety recall for 83 2016 Ford E-Series cutaway and chassis cab vehicles in North America for a potential issue with the trailer brake controller. Under certain conditions, a driver may lose trailer braking function at a stop, which could result in extended braking distance, increasing the risk of a crash. Vehicle braking is not affected.

There are 75 vehicles in the United States and federalized territories and eight in Canada.

Ford is not aware of any accidents or injuries related to this issue.

Dealers will update the powertrain control module software at no cost to the customer.

### About Ford Motor Company

*Ford Motor Company (NYSE: F) is a global company based in Dearborn, Michigan, that is committed to helping build a better world, where every person is free to move and pursue their dreams.
