## Tough Enough for Law Enforcement: Mustang Mach-E Is First All-Electric Vehicle to Pass Michigan State Police Tests

**DEARBORN, Mich., Sept. 24, 2021** – The [Ford Pro](#) all-electric police pilot vehicle based on the 2021 Mustang Mach-E SUV just became the first all-electric vehicle to pass the rigorous Michigan State Police 2022 model year evaluation. Testing included acceleration, top speed, braking and high-speed pursuit, as well as emergency response handling characteristics. Michigan State Police is one of two law enforcement agencies that annually test new model year police vehicles and publish the results for use by agencies nationwide.

“The fact that the Mustang Mach-E successfully stood up to the grueling Michigan State Police evaluation demonstrates that Ford can build electric vehicles that are capable, tough and reliable enough for even the most challenging jobs,” said Ted Cannis, CEO of Ford Pro. “We understand the needs of our commercial customers and are committed to unlocking new electrification opportunities for them.”

Ford Pro submitted the all-electric police pilot vehicle for testing in the Michigan State Police 2022 model year evaluation Sept. 18 and Sept. 20. Michigan State Police will publish results for vehicles tested on its website later in the fall.

### About Ford Motor Company

Ford Motor Company (NYSE: F) is a global company based in Dearborn, Michigan, that is committed to helping build a better world, where every person is free to move and pursue their dreams. The company’s Ford+ plan for growth and value creation combines existing strengths, new capabilities and always-on relationships with customers to enrich experiences for and deepen the loyalty of those customers. Ford designs, manufactures, markets and services a full line of connected, increasingly electrified passenger and commercial vehicles: Ford trucks, utility vehicles, vans and cars, and Lincoln luxury vehicles. The company is pursuing leadership positions in electrification, connected vehicle services and mobility solutions, including self-driving technology, and provides financial services through Ford Motor Credit Company. Ford employs about 182,000 people worldwide. More information about the company, its products and Ford Motor Credit Company is available at [corporate.ford.com](https://corporate.ford.com).
