## 2017 Mustang

### **2017 FORD MUSTANG TECH SPECS**

Modeled after the classic fastback, the 2017 Ford Mustang has a sleek, sporty, aerodynamic look, standard HID headlamps, and tri-bar LED taillamps with sequential turn signals.

Enthusiast customers will continue to enjoy the original pony car's range of powerful engines. The standard 3.7-liter V6 offers up 300 horsepower and 280 lb.-ft. of torque, while the available 2.3-liter EcoBoost<sup>®</sup> puts out 310 horsepower\* and 320 lb.-ft. of torque\*. Mustang GT's 5.0-liter V8 engine kicks out 435 horsepower\* and 400 lb.-ft. of torque\*. All Mustang models come with a dual exhaust system.

The 2017 Mustang chassis features an integral link independent rear suspension that helps minimize body roll and isolate road imperfections for a responsive ride and precise handling.

The popular Pony Package includes 19-inch polished aluminum wheels, unique upper grille with classic tri-bar pony logo and side stripes. The available Performance Package includes a 3.55 limited-slip differential, increased-diameter antiroll bars, larger brake rotors, heavy-duty springs and unique chassis tuning.

Mustang features available SYNC<sup>®</sup> 3 enhanced voice recognition communications and entertainment system. An available 8-inch LCD capacitive touch screen in the center stack has swipe and pinch-to-zoom capabilities, AppLink<sup>™</sup>, 911 Assist<sup>®</sup>, Apple CarPlay and Android Auto.

Buyers can now opt for three new colors including Lightning Blue, Grabber Blue and White Platinum Metallic Tri-coat.

Technical specifications for the 2017 Ford Mustang can be found [here](#).

\*Tested with 93-octane fuel.
